Gulfstream Selects EMTEQ® Lighting for the G650

New Berlin, WI, USA (October 2009) – EMTEQ has been awarded a long-term contract by Gulfstream Aerospace to design, develop and manufacture interior and exterior LED lighting packages for the Gulfstream G650 business jet. The G650 offers the longest range, fastest speed, largest cabin and the most advanced cockpit in the Gulfstream fleet.

The interior product solutions EMTEQ is providing for the G650 consist of custom designed dome and reading lights for the flight deck, aft compartment lights, exit signs, air stair lights which provide unique, welcoming lighting on the aircraft, and outlets. Improved lighting onboard the G650 offers a well lit cabin environment suitable for meetings and rest while in flight.

EMTEQ's exterior lighting designs are customized for the G650. The exterior lighting package consists of wing inspection lights, logo lights, wheel well lights, service panel lights, indicator and pylon lights. Reduced-size logo and service panel lights replace much larger products currently on the market.

For more information visit www.emteq.com, or contact Scott Sweet via email at ssweet@emteq.com or by calling 1-262-679-6170.

About EMTEQ and Its Partners

Incorporated in 1996, EMTEQ is a comprehensive solution provider, specializing in avionics systems and integration, interior lighting and cabin comfort, and exterior lighting products for retrofit and forward fit applications in the military, corporate, HOS/VIP, helicopter and air transport markets. To complement this product offering is EMTEQ's unsurpassed design, certification and consulting services. From electrical and mechanical design to interior reconfigurations, FAA certification services, Transport Canada certification services, and technical support, EMTEQ delivers innovative products and responsive service on every program. Today, EMTEQ employs 400 people from a state-of-the-art, AS9100 and FAA PMA approved 57,000 sq. ft. facility in New Berlin, Wis., with worldwide offices and manufacturing facilities in Florida, Winnipeg, Canada, Taubaté, Brazil, and Bachenbülach, Switzerland. EMTEQ also holds a strategic partnership with Cable Technology in Great Falls, Montana. Learn more about EMTEQ and its partners at www.emteq.com, www.acs-nai.com, and www.cteq.com.
