EMTEQ Cables for CMS/IFE Systems

Ethernet, HDMI, HD Video and Data Transfer cables for seamless integration with CMS/IFE Systems

New Berlin, Wis., USA (August 2009) – EMTEQ and Custom Control Concepts (CCC) have partnered to approve cables specifically for integration with CCC's innovative Cabin Management (CMS) and In-Flight Entertainment (IFE) System for business and VIP aircraft.

EMTEQ has recently tested and received approval for several cables, including those for High Definition Video, Digital Audio, Ethernet and communication, used for integration with the CCC system. This adds to EMTEQ's vast coax and specialty cable product family and continues the growth and expertise in cabling systems.

Approved cables available for integration with the CCC System are:

Cable Type:	Part Number:
75Ω High Performance High Definition Video Cable	PFLX190-075-01
100Ω 1000 Base-T CAT 5e Ethernet (rated to CAT 6 up to 240 feet)	D100-0824-101
Digital Audio / Standard Definition Video / Digital Communication (C-Stream); 24 AWG	D100-0224-764
Digital Audio / Standard Definition Video / Digital Communication (C-Stream); 22 AWG	D100-0222-764

In addition to the CCC system, EMTEQ offers a variety of cables for other CMS/IFE systems which are integrating many of the new technologies, such as High Definition Video.

- 100Ω 1000 Base-T Giga-flex CAT 6 Ethernet
- CAT 7 Ethernet
- HDMI/DVI Cable

Benefits of these cables include:

- Lightweight and flexible compared to competitor cables
- Better temperature range(s)
- Smaller in diameter
- Seamless integration with the CMS system

EMTEQ provides prefabricated and tested assemblies or bulk cable and connectors. For more information, please contact EMTEQ's Cable and Tray Product Manager, Kerry Stuckart, at 262-679-6562 or kstuckart@emteq.com.

About EMTEQ and Its Partners

Incorporated in 1996, EMTEQ is a comprehensive solution provider, specializing in avionics systems and integration, interior lighting and cabin comfort, and exterior lighting products for retrofit and forward fit applications in the military, corporate, HOS/VIP, helicopter and air transport markets. To complement this product offering is EMTEQ's unsurpassed design, certification and consulting services. From electrical and mechanical design to interior reconfigurations, FAA certification services, Transport Canada document processing and interpretation, and technical support, EMTEQ delivers innovative products and responsive service on every program. Today, EMTEQ employs 430 people and operates its headquarters from a state-of-the-art, PMA and AS9100 57,000 sq. ft. approved facility in New Berlin, Wisconsin, with worldwide offices and manufacturing facilities in Florida, Winnipeg, Canada, Taubaté, Brazil, and Bachenbülach, Switzerland. EMTEQ also holds a strategic partnership with Cable Technology in Great Falls, Montana. Learn more about EMTEQ and its partners at www.emteq.com, www.acs-nai.com, and www.cteq.com.
