EMTEQ Announces Establishment of Design Services Facility in Brazil

EMTEQ do Brazil, Ltda. offers comprehensive extended engineering support and capabilities for airframe OEMs

New Berlin, Wis., USA (September 10, 2008) – EMTEQ, a leader in design engineering and certification for avionics installation kits as well as interior and exterior LED lighting, announces the establishment of EMTEQ do Brazil, Ltda in Taubaté, São Paulo region, Brazil. The design team became employees of EMTEQ, Inc., headquartered in New Berlin, Wisconsin, in late spring of 2008. The two individual organizations had been collaborating on various projects several months prior to the Brazilian office's establishment as a legal EMTEQ entity.

Says Jeff Rozewicz, Director – Sales & Engineering, “The establishment of a design facility in Brazil allows us to better service customers in the region. The team in this particular office adds significant value to our overall capabilities with their proficiency with design software and CAD programs such as IGE-XAO and CATIA.” He continues, “It’s becoming increasingly important for companies to offer comprehensive tools, technical support and innovative time and money-saving ideas to maximize results for both our internal and external clients. What EMTEQ do Brazil is able to do for us has resulted in improved communications regarding technical issues and greater efficiencies in our assembly processes.”

The Brazilian facility is not the only EMTEQ location which exclusively provides engineering or design services.

The former Avitas Engineering, located in Miami, Florida, was acquired by EMTEQ in 2002. Their expertise is in the development of installation engineering and integration designs with FAA, EASA and other local certification approvals. EMTEQ’s recently acquired Canadian entity; Aero Consulting Services (ACS) specializes in aftermarket engineering and technical support.

For more information about the EMTEQ do Brazil facility engineering capabilities or other engineering, product development and technical consulting inquiries, contact Jeff Rozewicz, Director – Sales & Engineering, at 262-679-6170 or write to sales@emteq.com.

About EMTEQ and Its Partners

Incorporated in 1996, EMTEQ is a comprehensive solution provider, specializing in avionics systems and integration, interior lighting and cabin comfort, and exterior lighting products for retrofit and forward fit applications in the military, corporate, HOS/VIP, helicopter and air transport markets. To complement this product offering is EMTEQ's unsurpassed design, certification and consulting services. From electrical and mechanical design to interior reconfigurations, FAA certification services, Transport Canada document processing and interpretation, and technical support, EMTEQ delivers innovative products and responsive service on every program. Today, EMTEQ employs 430 people and operates its headquarters from a state-of-the-art, PMA and AS9100 57,000 sq. ft. approved facility in New Berlin, Wisconsin, with worldwide offices and manufacturing facilities in Florida, Winnipeg, Canada, Taubaté, Brazil, and Bachenbülach, Switzerland. EMTEQ also holds a strategic partnership with Cable Technology in Great Falls, Montana. Learn more about EMTEQ and its partners at www.emteq.com, www.acs-nai.com, and www.cteq.com.
