EMTEQ Launches New Web Sites

Three new web sites provide enhanced user experiences with improved navigation and detailed company information

New Berlin, Wis. (March 31, 2009) – EMTEQ has launched three new Web sites to support the advancement of information sharing with the entire aviation industry. All three sites strive to offer an enhanced user experience through improved navigation for more directly accessible information, deeper content regarding product and service offerings, and updated design based on the company's revitalized branding elements. The three new sites can be viewed at: www.emteq.com; www.acs-nai.com; and www.cteq.com.

EMTEQ.com. This main headquarter site serves all of the aviation industry with a breadth of information regarding all EMTEQ products, services, and locations. Specific highlights of this site include:

- Interactive product and service demonstration featuring the company's full range of solutions
- Insight into EMTEQ's innovation and product development capabilities
- Markets Served section, outlining EMTEQ's experience with various systems, platforms, and equipment and airframe OEMs in specific markets
- Increased visibility to and detailed information on all EMTEQ locations and partners
- Enhanced About Us section, including detailed company history, business philosophy and community outreach efforts
- Expanded Resources and Literature section more immediate access to information on media relations, events, and company literature

ACS-NAI.com. ACS-NAI.com serves to provide a global overview of the engineering, certification and manufacturing capabilities of EMTEQ's Canadian facility. This site provides improvements to the former ACS-NAI site, and includes:

- Increased and updated information regarding engineering and certification capabilities of this location, including outline of relationships with Transport Canada, the Federal Aviation Administration and the European Aviation Safety Agency
- Further accessibility to the company's full breadth of structures and mechanical systems capabilities
- Overview of product development and innovation capabilities for custom design projects
- Updated design based on the branding elements of parent-company EMTEQ

CTEQ.com. Cteq.com supports the efforts of Cable Technology, Inc, located in Great Falls, Montana. Cable Technology, Inc is a strategic partner of EMTEQ, Inc. (Please note: Cable Technology, Inc. is not owned by and is not a subsidiary of EMTEQ, Inc.) Specific highlights of this site include:

- Vastly more detailed and updated information on the wire, coaxial and cable related assembly product and service offerings of Cable Technology
- Additional company information, including Business Philosophy, Innovation Ideals, Hub Zone Status, and Product Literature
- Redesign based on the company's updated branding elements

About EMTEQ and Its Partners

Incorporated in 1996, EMTEQ is a comprehensive solution provider, specializing in avionics systems and integration, interior lighting and cabin comfort, and exterior lighting products for retrofit and forward fit applications in the military, corporate, HOS/VIP, helicopter and air transport markets. To complement this product offering is EMTEQ's unsurpassed design, certification and consulting services. From electrical and mechanical design to interior reconfigurations, FAA certification services, Transport Canada document processing and interpretation, and technical support, EMTEQ delivers innovative products and responsive service on every program. Today, EMTEQ employs 430 people and operates its headquarters from a state-of-the-art, PMA and AS9100 57,000 sq. ft. approved facility in New Berlin, Wisconsin, with worldwide offices and manufacturing facilities in Florida, Winnipeg, Canada, Taubaté, Brazil, and Bachenbülach, Switzerland. EMTEQ also holds a strategic partnership with Cable Technology in Great Falls, Montana. Learn more about EMTEQ and its partners at www.emteq.com, www.acs-nai.com, and www.cteq.com.
