EMTEQ Seat Warmer System (SWS) Installation

Mod. Order: 2-43183-800

AFMS: N/A

Master Kit List: 2-43183-801

ICA: 2-43183-805

Summary:

This EMTEQ Seat Warmer System (SWS) installation entails modification of the passenger seats (quantity and location at owner/operator discretion) for installation of the SWS heating pads, harness and components, and a new SWS system's ON/OFF switch installed in the RH subpanel for aircraft without an existing Furnishings ON/OFF switch. For aircraft with an existing Furnishings ON/OFF switch installed on the Overhead Control Panel, this switch functions as the SWS system ON/OFF switch.

Notes:

* One each per seat assembly to be modified with the EMTEQ SWS. Quantity of seats to be modified is at aircraft owner/operator discretion.
