STC Information Sheet

FAA STC: ST02929AT

Master Drawing List: 2-22566-001

Approved Model List: 2-22566-002

Aircraft: McDonnell Douglas DC-9-10/-20/-30/-40/-50/-80 Series and MD-88/-90 Series

Configuration: 1

DC-9/MD-80 Series – Artex C406-1 Emergency Locator Transmitter (ELT) Installation

Mod. Order: 2-22566-801

AFMS: N/A

Master Kit List: 2-22566-802

ICA: 2-22566-905

Summary:

The Artex C406-1 Emergency Locator Transmitter (ELT) system consists of the ELT transmitter installed in the aft overhead cabin adjacent to the ELT antenna on the upper aft fuselage. Connected to the ELT transmitter is a programming dongle. Finally, a Remote Switch is installed in the cockpit to control the ELT system.

Notes:

This is an Approved Model List (AML) STC that includes various aircraft types.

* Included in Artex Kit 455-5015-XXX

** Included in Artex Kit 455-4010
